R580

With its unique New Touch of Color finish and crystal-S design, the SAMSUNG R580 looks as good as it performs.

Is it too much to expect your mobile computer's appearance to reflect its performance? SAMSUNG doesn't think so. That's why the SAMSUNG R580 boasts a high-end design that parallels its high performance features like the 16:9 HD LED display that delivers sharp images and bold colors. Highlighted by its New Touch of Color finish, an appealing crystal-S pattern, and a durable casing engineered to reduce the risk of scratches and fingerprints, the SAMSUNG R580 makes sure your on-the-go lifestyle stays stylish. And with touchpad lighting, a low profile keyboard and a 17-key numeric keyboard, using it is as enjoyable as it is productive.

Genuine Windows® 7 Home Premium

Windows® 7

You'll love Windows® 7 because it makes the things you do with your PC every day faster and easier - so there are fewer steps between you and what you want to do.

Simplifies everyday tasks: Easier navigation, simpler home networking, improved device capabilities, and faster Web browsing with Windows® Internet Explorer® 8 makes your life easier, and computing experience more fun.

Safeguard Your Work: Your important data faces serious threats - from data loss and spyware, to outright theft of information. Windows® 7 strong security foundation and features helps protect users and systems against malware and other forms of security threats.

Makes new things possible: Windows 7 provides more choices for how you can interact with your PC, making it easier for you to enjoy photos, music, and video from almost anywhere.

Crafted for style and safety

Because a life on the go can often trip you up, the SAMSUNG R580 was crafted to not let you down. In fact, its high quality craftsmanship extends as much to its exterior as to its high performance inner workings. Built to withstand bumps and knocks, the R580 comes with a robust, durable casing designed to keep its contents safe and sound as well as reduce the risk of scratches and fingerprints. And its ergonomic, stylish design makes it as coolly eye-catching as it is reliable.

A picture that's close to perfection

The R580's 16:9 aspect ratio immerses you in games and movies with an accurate representation - so you don't have annoying black bands crowding your picture. You'll watch movies the way they were meant to be seen. And see images that are fine-tuned with the sharpest details and boldest colors on a 15.6" HD LED display. An added bonus? It uses less power, so you can be entertained longer. Get more out of your on-the-go entertainment and enjoy a bigger, better picture.

Easy-to-use numeric keypad

CALL: 9892 0000

With an expansive 17-key numeric keypad, hitting the right number key is easier than ever - especially if your fingertips are used to tapping away at your PC. Whether you're using Excel spreadsheets, doing calculations or playing video games, it all adds up: SAMSUNG's numeric keyboard offers easy, enhanced usability.

A Touch of Colour and a whole lot performance

SAMSUNG's sleek and chic new Touch of Colour design delivers a cool, comfortable lifestyle experience with little touches engineered to make a big difference. The R580's finish features an appealing gradation of colors and eye-catching crystal S-pattern design while the new Intel Core i5 processor provides blazing computing power. The low profile island keyboard makes for a seamless look and effortless typing experience. While the haptic-enhanced LED touch pad lights up its look and responds to your every touch. SAMSUNG's new Touch of Color stylishly ensures you never blend into the crowd.

Enhance your entertainment with great graphics

The R580 features the latest NVIDIA GeForce N11P-GE graphics card for an exceptional video and gaming experience. Its advanced 3D graphics processing power and dedicated 512MB gDDR3 memory provide outstanding graphic performance, so you can enjoy state-of-the-art 3D computer games and High Definition (HD) movies with incredible performance and fidelity.

USB Sleep-and-charge

Pack one less cord (or forget one less) on your next trip. The R580 lets you charge many of your mobile devices right through its USB charging port. And the R580 doesn't even have to be powered up. Go ahead, anytime, anywhere. Recharge your phone, your MP3 player and while you're at it, yourself.

Get online almost anywhere

The R580 incorporates advanced communications technologies, including 802.11bgn wireless, to provide high-speed access to the Internet and your data anytime and anywhere.

AnyPC

With an innovative remote PC function, easily access your home or office PC from your notebook. Send and retrieve documents as well as transfer files - even music and movies - quickly and securely while you're on the go.
